BALAMURUGAN M

Coimbatore, Tamil Nadu • +91 8148295183 • balamr@gmail.com • LinkedIn.com/balamurugan •github.com/balamurugan

PROFESSIONAL SUMMARY

Information Technology undergraduate with hands-on experience in full-stack web development, dynamic application design, and database management. Proficient in Python, JavaScript, React.js, and Django. Demonstrated ability to build practical software solutions including clinic management systems and AI-based advisory engines. Eager to leverage strong technical, analytical, and problem-solving skills in a Software Engineering role.

EDUCATION

Kumaraguru College of Technology — Coimbatore, India **2023 – 2027**

Bachelor of Technology in Information Technology (CGPA: 7.25 / 10.0)

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Web & Frontend Technologies: HTML5, CSS3, Bootstrap, React.js

Backend & Frameworks: Django

Databases & Cloud Storage: MySQL

Developer Tools & Version Control: Git, GitHub

WORK EXPERIENCE

Python Full Stack Intern | IDM Techpark Coimbatore, India

- Engineered and deployed responsive web applications utilizing Python and full-stack development practices.
- Designed backend RESTful API endpoints and integrated seamless frontend interfaces for enhanced user experience.
- Implemented full CRUD database operations, query optimization, and structured relational schemas using MySQL.
- Executed unit testing, code debugging, and performance enhancements across full application life cycles.

PROJECTS

Smart Clinic Management System | *Python, React.js, Supabase, SQL*

- Architected an end-to-end web management solution for small clinics, automating patient record tracking, appointment scheduling, inventory management, and invoice billing.
- Configured Supabase for real-time relational data sync, role-based user authentication, and secure cloud storage.

AI-Driven Crop Recommendation & Advisory System | *Python, Machine Learning, Django*

- Developed a predictive machine learning pipeline that analyzes soil condition, weather analytics, and geographical data to recommend optimal crops and fertilizers.
- Integrated an AI conversational chatbot interface providing real-time agricultural advisories and troubleshooting for farmers.

CERTIFICATIONS

- **Python Full Stack Development Certification** – IDM Techpark
- **Databases and SQL for Data Science with Python** — IBM (Coursera)
